October 29, 2024

# Disclaimer

This document may contain forward-looking information and statements about ACERINOX, S.A., its subsidiaries and/or its management, including but not limited to financial projections and estimates and their underlying assumptions, and statements regarding the intent, belief or current expectations or forecasts of ACERINOX, S.A. and/or its management, as well as statements regarding future performance, plans, objectives, operations, business, strategy, capital expenditures, results of operations, markets and products.

This communication also includes certain disclosures which contain "forward-looking statements". These forward-looking statements generally include statements related to the proposed transaction, including financial estimates and statements as to the expected timing, completion and effects of the proposed transaction. These forward-looking statements also include financial projections and estimates and their underlying assumptions, and statements regarding the intent, belief or current expectations or forecasts of ACERINOX, S.A. and/or its management, as well as statements regarding future performance, plans, objectives, operations, business, strategy, capital expenditures, results of operations, markets and products. In most cases, words or phrases such as "anticipates", "believes", "confident", "could", "estimates", "expects", "intends", "target", "potential", "may", "will", "might", "plans", "path", "should", "approximately", "our planning assumptions", "forecast", "outlook" and variations or the negative of these terms and similar expressions identify forward-looking statements. These forward-looking statements, including statements regarding the proposed transaction and financial projections and estimates, are based largely on information currently available to ACERINOX's management and on ACERINOX's management's current expectations and assumptions and are subject to various risks and uncertainties that could cause actual results to differ materially from historical results or those expressed or implied by such forward-looking statements. These forward-looking statements or forecasts may also include assumptions regarding future economic and other conditions, such as future nickel or chrome prices and, in general, are subject to risks, uncertainties and variables beyond ACERINOX's control that can adversely affect them. Although ACERINOX, S.A. believes its expectations are based on reasonable estimates and assumptions, they are not guarantees of performance, prices, results of operations, benefits or dividend payout policies. There is no assurance that ACERINOX's expectations will occur or that our estimates or assumptions will be correct, and ACERINOX, S.A. cautions investors and all others not to place undue reliance on such forward-looking statements.

Important factors, risks and uncertainties that could cause actual results to differ materially from such plans, estimates or expectations include but are not limited to: (i) the completion of the proposed transaction on the anticipated terms and timing, including obtaining required shareholder and regulatory approvals, and the satisfaction of other conditions to the completion of the proposed transaction; (ii) the risk that disruptions from the proposed transaction (including the ability of certain customers to terminate or amend contracts upon a change of control) can harm the business of the parties involved, including current plans and operations, including during the pendency of the proposed transaction; (iii) potential adverse reactions or changes to business relationships resulting from the announcement or completion of the proposed transaction; (iv) unpredictability and severity of catastrophic events, including but not limited to acts of terrorism, outbreaks of war or hostilities or the COVID-19 pandemic, as well as management's response to any of the aforementioned factors; (v) the possibility that the proposed transaction may be more expensive to complete than anticipated, including as a result of unexpected factors or events; (vi) the occurrence of any event, change or other circumstance that could give rise to the termination of the proposed transaction; and (vii) those risks and uncertainties set forth in ACERINOX's most recent annual report, as such risk factors may be amended, supplemented or superseded from time to time by other reports filed by ACERINOX, S.A. with the Spanish National Securities Market Commission (hereinafter, the "CNMV") from time to time, which are available via the CNMV's website at <https://www.cnmv.es>.

These risks, as well as other risks associated with the proposed transaction, will be more fully discussed in the proxy statement that will be filed with the SEC in connection with the proposed transaction. There can be no assurance that the proposed transaction will be completed, or if it is completed, that it will close within the anticipated time period. These factors should not be construed as exhaustive and should be read in conjunction with the other forward-looking statements. The forward-looking statements relate only to events as of the date on which the statements are made. Except as required by applicable law, ACERINOX, S.A. does not undertake any obligation to publicly update or revise any forward-looking statements and information, even in the event of new information being published or new events occurring. If one or more of these or other risks or uncertainties materialize, or if ACERINOX's underlying assumptions prove to be incorrect, ACERINOX's actual results may vary materially from what ACERINOX may have expressed or implied by these forward-looking statements. ACERINOX cautions that you should not place undue reliance on any of its forward-looking statements. All subsequent oral or written forward-looking statements or information attributable to ACERINOX, S.A. or any of its members, directors, officers, employees or any persons acting on its behalf are expressly qualified in their entirety by this cautionary statement. You should specifically consider the factors identified in this communication that could cause actual results to differ. Furthermore, new risks and uncertainties arise from time to time, and it is impossible for ACERINOX to predict those events or how they may affect ACERINOX.

No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or opinions contained herein. None of ACERINOX or any of its affiliates, advisors or representatives shall have any liability whatsoever for any loss arising from any use of this document, or its contents, or otherwise arising in connection with this document. Moreover, neither this document nor any part of it constitutes a contract, nor may it be used for incorporation into or interpretation of any contract or other type or agreement.

The points contained in this disclaimer must be taken fully into account by all persons or entities obliged to adopt decisions or to draw up or to publish opinions on securities issued by ACERINOX, S.A., in particular, by the analysts and investors reading this document. All the aforesaid persons are invited to consult the public documentation and information that ACERINOX, S.A. reports to or files with the bodies responsible for supervising the main securities market and, in particular, with the CNMV.

# Q3 2024 at a glance

**Q3 EBITDA of €114 million**, despite challenging market conditions

**Operating cash flow in Q3 of €-63 million** (€+203 million in 9M), driven by operating working capital (OWC) build of €122 million (€38 million in 9M)

**Agreement to sell Bahru Stainless for \$95 million**

**Haynes International: UK antitrust clearance obtained; pending Austria**

## Outlook:

- **Q4 EBITDA to be higher than Q3, due to the sale of Bahru**
- **Q4 adjusted EBITDA to be lower than Q3**
- **Reduction of OWC and net financial debt in Q4**

# Contribution to circular economy and sustainable development

## 2030 sustainability targets (\*)

### Eco-efficiency and climate change mitigation

- **GHG emissions** (Scopes 1 & 2): 5% increase [2030 target: 20% intensity reduction from 2015 baseline]
- **Water withdrawal:** 41% reduction [2030 target: 20% intensity reduction from 2015 baseline]
- **Energy:** 6% increase [2030 target: 7.5% intensity reduction from 2015 baseline]

### Engaged team, culture, diversity, and safety

- **Safety:** 5% reduction from FY 2023  
● [Target: 26% YoY reduction in TIR]
- **Diversity:** 13.4% women [2030 target: women account for 15% of workforce]

### Circular economy and sustainable products

- **Waste reduction:** 86% valorization [2030 target: 90% valorization]

### Recycling 100% of:

Grinders / Oily paper / Oil (decantation, flame-retardant and hydraulic) / Process scrap & metal recovered / Machined electrodes / Paper / Plastic / Cardboard / Others

● On target ● Below target

## 360° Positive Impact Plan

### Most significant sustainability initiatives in Q3 2024

#### Eco-efficiency and climate change mitigation

- Carbon Product Footprint verification in Acerinox Europa.
- Water footprint model implemented at Group level.

#### Circular economy and sustainable products

- Several research projects with cement makers to use slag.

#### Committed team, culture, diversity, and safety

- Continuous actions defined at national level with regards to the Gender Equality Plans.
- H&S culture: HSE Awards in VDM.

#### Supply chain and impact in the community

- UN Business & Human Rights Accelerator.

#### Ethical, responsible, and transparent governance

- Sustainability management certification Acerinox Europa.
- Sustainability policies review.

(\*) Acerinox Europa strike impacted the KPI's

# Acerinox strategy

## Control the Controllables

In the midst of adversity, we not only endure but thrive

### Acerinox Europa

Finally, the Group has signed a collective bargaining agreement that facilitates the implementation of a new business model.

- ✓ Flexibility
- ✓ Customer-centric
- ✓ High-value-added products

### Haynes Acquisition

Purchase agreement for the acquisition of Haynes Int., a leading producer of advanced high-performance alloys.

- ✓ America
- ✓ Aerospace
- ✓ Alloys

### Bahru Stainless

Acerinox S.A. has signed an agreement to sell its subsidiary, Bahru Stainless Sdn. Bhd., to Worldwide Stainless Sdn. Bhd. for USD 95 million, with final closing expected during Q4.

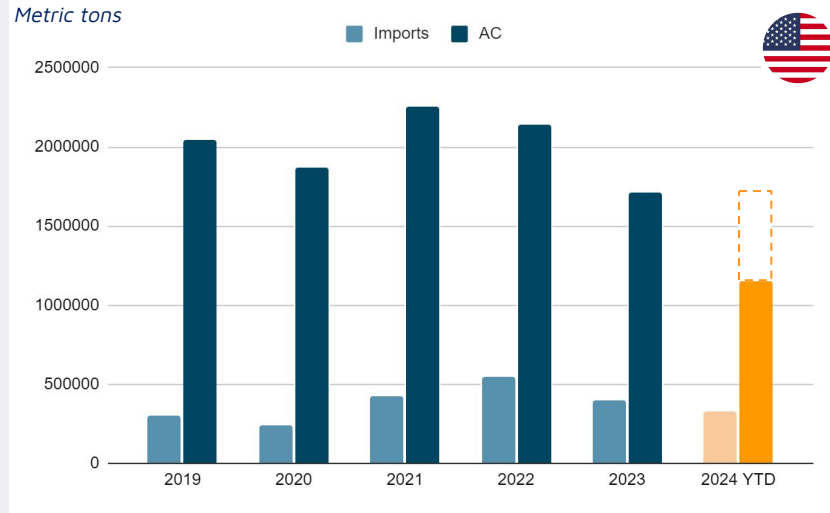

- ✓ Focus on our core markets

Milestones

Outcomes

Expansion plans in NAS (USA) and in VDM-Metals are on schedule

# Q3 2024: Market highlights

## STAINLESS STEEL

### USA

- Sept. manufacturing PMI: 47.2, sixth consecutive month of contraction
- Apparent demand of flat products down 1% in 2024 through August
- Inventories below historical average
- Imports of flat products market share: 28% in 2024 through August
- Market prices remained stable QoQ

### EUROPE

- Eurozone manufacturing PMI in September decreased to 45
- Apparent demand of flat products down 0.5% through August
- Inventories remained below historical average
- Imports of flat products market share: 18% through August
- Market prices remained stable QoQ

## HIGH-PERFORMANCE ALLOYS (HPAs)

- **HPA** market driven by **consistent demand**
- **Oil and gas (O&G)** and **Chemical Process Industry (CPI)** remained in a **solid** situation. **Electronics and automotive stable** at high levels
- **Aerospace** showed a weaker performance as a result of sector disruptions

● favorable ● challenging

# Q3 2024: Consolidated group highlights

**Solid results in very challenging markets**

**9M EBITDA: €350 million**

(9% margin)

Q1: €111 million (7% margin)

Q2: €125 million (10% margin)

Q3: €114 million (9% margin)

**Net financial debt:**

**€453 million**

(€500 million in 2023 Q3)

# Capital allocation

Q3

9M

Q3

**NFD increase of €261 million driven by:**

- €122 million in OWC
- €77 million in dividends
- €71 million in conversion differences

9M

**Operating cash flow: €203 million**  
**CAPEX: €126 million**  
**Dividend payment: €154 million**

# Conclusions & Outlook

Conclusions

## 01

Acerinox obtained a **resilient EBITDA** in 9M 2024: **€350 million**

## 02

Temporary increase in **net financial debt**, due to Acerinox Europa ramp up

## 03

**Shareholder return:**  
€0.62 per share in 2024  
(7% dividend yield as of today)

Outlook

## 04

**Stainless:**  
Weak market conditions  
Market seasonality  
Reduced visibility  
Low inventory levels  
**HPAs:**  
Stable order book

## 05

**Update on Haynes acquisition:**

- UK antitrust clearance issued, now only waiting for the antitrust decision in Austria
- Closing expected in Q4

## 06

- **Q4 EBITDA higher than Q3**
- **Q4 adjusted EBITDA lower than Q3**
- **Reduction of net financial debt** in Q4

# Alternative Performance Measures (Definitions)

**Beyond Excellence:** Plan to improve Acerinox's operational excellence and competitiveness through specific objectives for its pillars.

**OWC (Operating working capital):** Inventories + Trade receivables – Trade payables

**Net cash flow:** Profit/(loss) after tax and non-controlling interests + depreciation and amortization

**NFD (Net financial debt):** Bank borrowings + bond issuance – cash

**Net financial debt / EBITDA:** Net financial debt / annualized EBITDA

**EBIT:** Operating income

**Adjusted EBIT:** EBIT, net of material extraordinary items

**EBITDA:** Operating income + depreciation and amortization + variation of current provisions

**Adjusted EBITDA:** EBITDA, net of material extraordinary items

**TIR:** Total incident rate, ((total accidents) \* 1,000,000 / hours worked)

**Debt ratio:** Net financial debt / Equity

**Net financial result:** Financial income – financial expenses ± exchange rate variations

**ROCE (Return on Capital Employed):** Annualized net operating income / (equity + net financial debt)

**ROE (Return on Equity):** Profit/(loss) after tax and non-controlling interests / equity

**ICR (Interest Coverage Ratio):** EBIT / Financial expenses

**Payout:** Shareholder remuneration / Profit/(loss) after tax and non-controlling interests

**Q&A**

# Results

Third quarter

2024

In-house translation of the original Spanish version. In the event of any discrepancy, the original Spanish version prevails

## Results for the third quarter of 2024

Acerinox has reported Q3 EBITDA of EUR 114 million. Our results attest to the Group's resilience, despite the challenging situation of final demand in our main markets, the United States and Europe.

### Highlights

- The Group's TIR (Total Incident Rate) has decreased by 5% compared to year-end 2023.
- Acerinox Europa's plant has resumed its activities after the 5-month strike.
- Melting shop production amounted to 491 thousand tons, an increase of 21% compared with Q2 2024 (12% higher than in Q3 2023), due to the reactivation of production at Acerinox Europa.
- EBITDA, that amounted to EUR 114 million, was 9% lower than in Q2 2024 (22% lower than in Q3 2023) as a result of challenging market conditions.
- Operating cash flow was EUR -63 million, mainly due to an increase of operating working capital.
- The Group's net financial debt amounted to EUR 453 million (EUR 500 million in September 2023).
- The annualized ROCE through 9M was 10%.
- A final dividend of 0.31 euros/share was distributed (through 9M a total dividend of 0.62 euros/share).
- Acerinox has signed an agreement for the sale of its subsidiary Bahru Stainless Sdn. Bhd. for a total sum of USD 95 million. It is expected that the final closing of the transaction will take place at the end of November 2024.
- The acquisition of Haynes Int., after the recent approval issued by the UK Competition and Markets Authority (CMA), is now pending only the decision of the Austrian competition authorities.

### Outlook

The weakness of the demand for stainless steel will continue for the fourth quarter. The end of year market seasonality and the geopolitical and macroeconomic uncertainties do not permit us to be optimistic in the short-term, despite the fact that inventories continue to be low.

The high-performance alloys market remains stable and the order book of VDM continues to be solid, although its activities will be affected by market seasonality in the fourth quarter.

EBITDA for the final quarter is expected to be higher than in the third quarter due to the sale of Bahru Stainless, and adjusted EBITDA is expected to be lower than in the third quarter. We plan to reduce operating working capital and, consequently, net financial debt.

Our robust strategy and the measures that are being adopted will have positive effects in our results once demand picks up.

### Statement by our CEO, Bernardo Velázquez, on the results

"The strength of our American subsidiary, North American Stainless (NAS), and of our high-performance alloys division, has enabled the Group to report third-quarter EBITDA of EUR 114 million, despite the challenging market conditions within the stainless steel sector.

The new collective bargaining agreement at Acerinox Europa will enable the implementation of a new business model based on enhanced flexibility to adapt to market conditions, more focused on the customer and adding value. The resumption of activities at the factory has been carried out satisfactorily.

The acquisition of Haynes has been a key step in our diversification strategy, positioning us at the top of the pyramid of higher value added products, thereby prioritizing the American market, the aerospace sector and high-performance alloys. This acquisition allows us to reduce our exposure to economic cycles, by protecting the Group from market fluctuations and strengthening our offer of specialized products.

The sale of Bahru Stainless for USD 95 million is an important strategic decision that is considered to be the option that best defends the interests of our employees, customers and the community in general, and I would like to thank all of them for their contribution to the Group over recent years.

All these strategic steps will enable us to improve our competitiveness, focus on our core markets, adequately meet the challenges of the future, strengthen Acerinox's resilience and its ability to adapt to changes in the environment and maintain our commitment to the creation of sustainable value for our shareholders."

EBIT	57	22	77	165	74	232
<i>EBIT margin</i>	6%	7%	6%	5%	7%	6%

### Third quarter

Q3 results have been affected by lower demand in the U.S. and European markets, as well as the uncertainty that currently exists in the world.

Revenue has been slightly higher than in Q2, mainly as a result of the resumption of the activities of Acerinox Europa.

EBITDA, that amounted to EUR 114 million, was 9% lower than in Q2 (22% lower than in Q3 2023). The sales margin has risen to 9% (from 10% in Q2).

The stainless steel division's EBITDA, that amounted to EUR 86 million, was 6% lower than in Q2, due to the lower demand in the United States and Europe. Final prices have dropped as a result of the reduction of the alloy surcharges, although the base price in the United States has remained stable.

The results of the high-performance alloys division remain at a good level (with EBITDA of EUR 28 million), although 17% below that of the second quarter as a result of the fall in nickel prices. The sales margin was 9% (11% in Q2).

The Group's profit after tax and non-controlling interests amounted to EUR 48 million, 23% lower than in Q2 (32% lower than in Q3 2023).

Operating cash flow for Q3 was EUR -63 million, mainly due to an increase of operating working capital, as a result of the resumption of activities of Acerinox Europa.

As at September 30, net financial debt, EUR 453 million, has increased by EUR 261 million compared with June 30, 2024. In addition to the increase of operating working capital, it is also noteworthy to mention the dividend payment (EUR 77 million) and negative conversion differences of EUR 71 million as a result of the depreciation of the U.S. dollar.

## Nine months

The first nine months of the year have been characterized by solid EBITDA in an unstable environment as a result of all of the macroeconomic and geopolitical uncertainties, together with the five-month strike at Acerinox Europa.

EBITDA amounted to EUR 350 million. The EBITDA margin was 9%.

Operating cash flow for the nine months was EUR 203 million. The operating working capital has increased by EUR 38 million and taxes have been paid in the sum of EUR 93 million. A payment for investment of EUR 126 million was made (mainly focused on NAS) and shareholders were remunerated with EUR 154 million. In light of the foregoing, the Group's net financial debt, EUR 453 million, has increased by EUR 112 million compared with that of December 31, 2023.

## 1.2. Sustainability Targets 2030

2030 TARGET	DEGREE OF PROGRESS
20% reduction in CO <sub>2</sub> emissions intensity (Scopes 1 and 2) compared to 2015.	5% vs. 2015 ●
7.5% reduction in energy intensity compared to 2015	6% vs. 2015 ●
20% reduction in specific water withdrawal compared to 2015	-41% vs. 2015 ●
90% waste recycled	86 % ●
26% reduction in TIR compared to 2023	-5% vs. 2023 ●
15% women in the workforce by 2030	13.4 % ●

● in line or better than target      ● worse than target

The stoppage at the Acerinox Europa factory during five months had a significant adverse impact on some of our sustainability indicators.

The indicators related to carbon intensity and energy consumption have worsened by 5% and 6%, respectively, compared to the base year, as a result of the lower activity in all factories, however the trend is positive for the year, as the indicators have improved by 20% and 2%, respectively, compared with the second quarter. The accident rate has been reduced by only 5% compared with 2023.

It is noteworthy to mention the significant reduction in the specific water extraction (that has been reduced by 41% compared with 2015, with the target being a reduction of 20%), the percentage of recycled waste (which represents 86%, in line with the target), and furthermore, women now represent 13.4% of the workforce.

## 2. Analysis of our main markets

### 2.1. Stainless steel market

#### United States:

- The manufacturing PMI for September was 47.2, representing the sixth consecutive month of contraction.
- Final demand in the U.S. market has been affected by the uncertainty inherent to the electoral process and the weaker than expected economic situation.
- Apparent consumption of flat product has fallen 0.8% through August, according to our estimates, in addition to last year's 20% drop.
- Imports of flat product represent 28% of the market through August.
- Distributor inventory has stabilized at levels below the average set over the last few years.
- Section 232 remains in force and effect and no reduction in trade protection measures is expected.

**Europe:**

- The manufacturing PMI in the Eurozone for September has dropped to 45 compared to 45.8 during the previous two months. It is the lowest figure registered during this year, due to the fact that the manufacturing sector is currently undergoing a drastic contraction.
- Although the destocking process has been completed, the European market has not rebounded as much as expected and final demand remains weak.
- Apparent consumption of flat product has fallen by 0.4% through August, according to our estimates, in addition to last year's 21% drop.
- Imports of flat product, which account for 17% of the total market, were down 6% through August compared to the same period last year.
- Inventory levels remain below the average of recent years.
- The renewal of the safeguard measures has been approved through June 2026.

## 2.2. High-performance alloys market

The high-performance alloys market has performed well this quarter.

Demand from oil and gas and the chemical process industry (CPI) has been stable during the quarter. Demand from the electronics and automotive sectors has remained stable at high levels.

In turn, the aerospace sector has been slightly weaker than expected, as a result of supply chain disturbances.

## 3. Strategic highlights of the first nine months

### 3.1. Shareholder remuneration

On April 22, 2024, the General Shareholders' Meeting was held, that approved the proposed distribution of a dividend of 0.62 euros per share. An interim dividend of 0.31 euros per share was paid in January, and a final dividend of 0.31 euros per share was distributed in July.

During the first nine months, Acerinox has allocated a total of EUR 154 million to dividends.

### 3.2. Acerinox Europa

Acerinox Europa and the Works Council signed the IV Collective Bargaining Agreement for the factory staff. This agreement, valid until December 31, 2027, will enable the development of a strategy through greater efficiency, flexibility, and diversification.

On June 21, and within the framework of the new Collective Bargaining Agreement, the factory resumed operations with a new production model that is tailored to current market needs and the strategy set out by the Group. This model will contribute to implement the strategy to alleviate the losses accumulated over the last few years and will address the real demand situation, which is characterized by strong competition and volatility.

The resumption of activities at the factory has been carried out satisfactorily during the quarter. It is noteworthy to mention that the relationships have been maintained with all of our customer portfolio, although the volumes, in the last part of the year, have necessarily been affected.

### 3.3. Haynes International

On February 5, Acerinox announced the signing of an agreement under which its North American subsidiary, North American Stainless (NAS), will acquire Haynes International (Haynes), a leading U.S. company in the development, manufacture and commercialization of technologically advanced high-performance alloys. The transaction will be carried out entirely in cash.

Haynes' Board of Directors submitted to its shareholders the sale of 100% of its shares. On April 16, 2024, Haynes' shareholders approved the proposed acquisition by NAS for \$61 per share in cash, for a total consideration of USD 798 million, corresponding to an enterprise value of USD 970 million.

On October 24, the UK Competition and Markets Authority (CMA) has authorized Acerinox to acquire Haynes International. The closing of the transaction is now pending only the decision of the Austrian authorities.

Once the conditions for the closing of the transaction are satisfied, Haynes will become wholly-owned by NAS. With this operation, the Group will consolidate its presence in the North American market, where it is already the leader in the area of stainless steel, as well as its position in the world high-performance alloys market and will also increase its exposure in the high-margin aerospace sector.

### 3.4. Sale of Bahru Stainless

Acerinox, S.A. and Worldwide Stainless Sdn. Bhd, a company registered in Malaysia, have signed, on October 10 of this year, an agreement pursuant to which Acerinox, S.A. will sell its subsidiary Bahru Stainless Sdn. Bhd. for a total sum of USD 95 million. It is expected that the final closing of the transaction will take place at the end of November 2024. Acerinox, S.A. had previously announced, on May 29 of this year, the discontinuance of the activities of Bahru Stainless Sdn. Bhd.

### 3.5. Sustainability

#### **Sustainable Suppliers Training Programme**

Acerinox has participated in the second edition of the Sustainable Suppliers Training Programme promoted by the UN Global Compact in collaboration with ICEX. This is an international training project, focused on specific areas of the Ten Principles of the Global Compact, the Sustainable Development Goals and business sustainability. The program is aimed at SMEs that are suppliers of large companies that participate in the UN Global Compact initiative in Spain.

#### **Human Rights Accelerator Programme**

Acerinox has participated in the second edition of the program developed by the UN Global Compact that provides companies with tools and knowledge to establish a continuous process of due diligence in human rights, in accordance with the United Nations Guiding Principles on Business and Human Rights.

## 4. Presentation of Third Quarter 2024 results

Acerinox will present its Third Quarter 2024 results today, October 29, at 1:00 p.m. (CET), led by the Chief Corporate Officer (CCO), Miguel Ferrandis; the Chief Financial Officer (CFO), Esther Camós; and the Director of Investor Relations, Communication, Consolidation and Reporting, Carlos Lora-Tamayo, who will be accompanied by the Investor Relations team.

To join the presentation by telephone, please connect 5–10 minutes before the event by using one of the following numbers:

From Spain: 919 01 16 44. PIN: 472336 / From the United Kingdom: 020 3936 2999. PIN: 472336 / From the USA: 1 646 664 1960. PIN: 472336 / All other countries +44 20 3936 2999. PIN: 472336

You can watch the presentation through the [Shareholders and Investors](#) section of the Acerinox website ([www.acerinox.com](http://www.acerinox.com)).

Both the presentation and all audiovisual material will be available on the [Acerinox](#) website.

## Alternative Performance Measures (Definitions)

**Beyond Excellence:** Plan to improve Acerinox's operational excellence and competitiveness through specific objectives for its pillars

**Operating working capital:** Inventories + Trade receivables – Trade payables

**Net cash flow:** Profit/(loss) after tax and non-controlling interests + depreciation and amortization

**Net financial debt:** Bank borrowings + bond issuance - cash

**Net financial debt / EBITDA:** Net financial debt / annualized EBITDA

**EBIT:** Operating income

**Adjusted EBIT:** EBIT, net of material extraordinary items

**EBITDA:** Operating income + depreciation and amortization + variation of current provisions

**Adjusted EBITDA:** EBITDA, net of material extraordinary items

**TIR:** Total incident rate, ((total accidents) \* 1,000,000 / hours worked)

**Debt ratio:** Net financial debt / Equity

**Net financial result:** Financial income – financial expenses ± exchange rate variations

**ROCE (Return on Capital Employed):** Annualized net operating income / (equity + net financial debt)

**ROE (Return on Equity):** Profit/(loss) after tax and non-controlling interests / equity

**ICR (Interest Coverage Ratio):** EBIT / Financial expenses

**Payout:** Shareholder remuneration / Profit/(loss) after tax and non-controlling interests
